- Patient examination and imaging
- Recipe book-what do you need?
- Arterial access
- Which approach is best?
- How to approach a stenosis
- When and how to do pressures and are they useful
- How to approach an occlusion.
- Which lesions should be stented.
- Are there differences between CIA and EIA lesions and how low down should we stent?
- Aftercare

14:30-15:30

SFA Intervention

J. Lammer

- Patient selection: introduction to TASVC guidelines
- Patient examination and imaging
- Recipe book-what do you need?
- Arterial access
- Which approach is best?
- How to approach a stenosis
- How to approach an occlusion.
- Basic theory of subintimal recanalization
- Is stenting of any value?
- Aftercare

15:30-16:00

Coffee Break

16:00 – 17:00

Embolization

K. Malagari

- Embolization materials, nature and when they might be used
- Importance of imaging and anatomy
- What embolization can achieve
- Basic equipment including ideal DSA.
- How to deal with a GI bleed- use this as an example.

17:00 – 18:00

Dialysis Interventions

K. Hausegger

- Venography or US?
- Differences between grafts and fistulae
- When is intervention necessary?
- Approach to imaging- how to see the whole fistula or graft?
- Materials and equipment including cutting balloons
- What to do about a thrombosed fistula and when not to bother
- When and how to occlude a fistula

SATURDAY, 09:00 – 18:00: REPETITIONS AND CASE DISCUSSION

9:00 - 12:30 (including coffee break)

Repetitions of lectures in small groups

Tutorials will be guided by each teacher who will discuss cases with a small group (max 10) for 45 minutes. After each session, the group will move on to the next teacher.

Topics

- Iliac Interventions (E. Brountzos)
- SFA Intervention (J. Lammer)
- Embolization (K. Malagari)
- Dialysis Interventions (K. Hausegger)

13:30 - 15:00 & 15:30 – 17:00

Interactive Case Discussion Forum

- Participants are invited to bring their complications, complex and difficult cases
- Faculty will also present their complex cases
- All cases will be discussed by the faculty
- Interactive discussion between the teachers & the audience
- This is your last chance to ask questions

15:00 – 15:30 Coffee Break

17:00
